RE: Ken Fish of Kingdom Fire Ministries

To whom it may concern:

Ken was first recommended to me as a teacher by John McElroy, who leads the Southern Cross Association of Churches, in early 2013.

Ken is an outstanding and thorough teacher. What endears me to him most though is his humble nature, and willingness to serve in any way he can.

When we first approached Ken to visit Esperance, a small coastal town about 700km South East of Perth, Western Australia, we were not in a financial position to provide much toward his trip. This was no obstacle to Ken, and he has always looked to find an affordable way to spend time with us.

Ken has a father heart toward the people he ministers to, and a gift for gathering in leaders to encourage them. He treats everyone with respect and honour, even those who display a difficult manner.

Ken is happy to speak on subjects that we require, but also to take the initiative and make suggestions as prompted by Holy Spirit. He has a clear, structured, and insightful teaching style, and is careful to measure his teaching time to the capacity for absorption of those present. One of the most valued elements of his ministry to us here is that once he has concluded teaching, he allows for the Lord to move in power upon those present, and releases others to minister with him as lead. Ken will often travel with a team, and he selects the members well in order to complement and serve the people he goes to. Ken equips the Saints to minister.

I have no hesitation in recommending Ken to build into your part of the body of Christ. He is a gifted man, a man of integrity, and I enjoy spending time with him, and seeing the fruit of what God does through him. I love the people I lead dearly, and so am prayerful about those I invite.

Yours sincerely,

John Bayly
Senior Minister
