

Ken Fish has a brilliant theological mind, and an ability to communicate biblical truths in a profound way. Ken has a healing anointing, and is able to equip, activate, and inspire people to actively advance the kingdom of God. His ability as a consultant and facilitator was a tremendous benefit in assisting us in our transition into an apostolic movement.

Beyond his scholarly teaching and gift in healing, he is a wise masterful builder. I would recommend Ken to any church or ministry. His years of wisdom and experience would greatly benefit any organization is fulfilling their vision and call.
