

Ken Fish is by far the best teacher on the Kingdom of God we have at our Kingdom School of Ministry. Having worked with John Wimber back in the early days of the Vineyard, Ken not only understands the scriptures from a Kingdom perspective, he moves in authority and power, and realizes the importance and demonstration of 'doing and teaching'. We have had the privilege of Ken coming and ministering to our class for several years and his dedication to the expansion of God's Kingdom reign through the demonstration of signs and wonders accompanied with unsurpassed biblical exegetical excellence brings clarity and encounter that sets the standard for all who follow. His compassion for the lost and those who are in bondage places him at the forefront of the demonstration of Kingdom breakthrough. However, that stated, his awareness of what God has done in seasons past as well as what God is doing in the earth today places him in a rarified place. Not to be missed is Ken Fish.
